

Ever stop to appreciate the mobile technology we rely on each day?

It's the lifeblood of our supply chain.

Warehouse

95% rely on mobile endpoints.

Transit

Paper eliminated. Instant updates.

Management

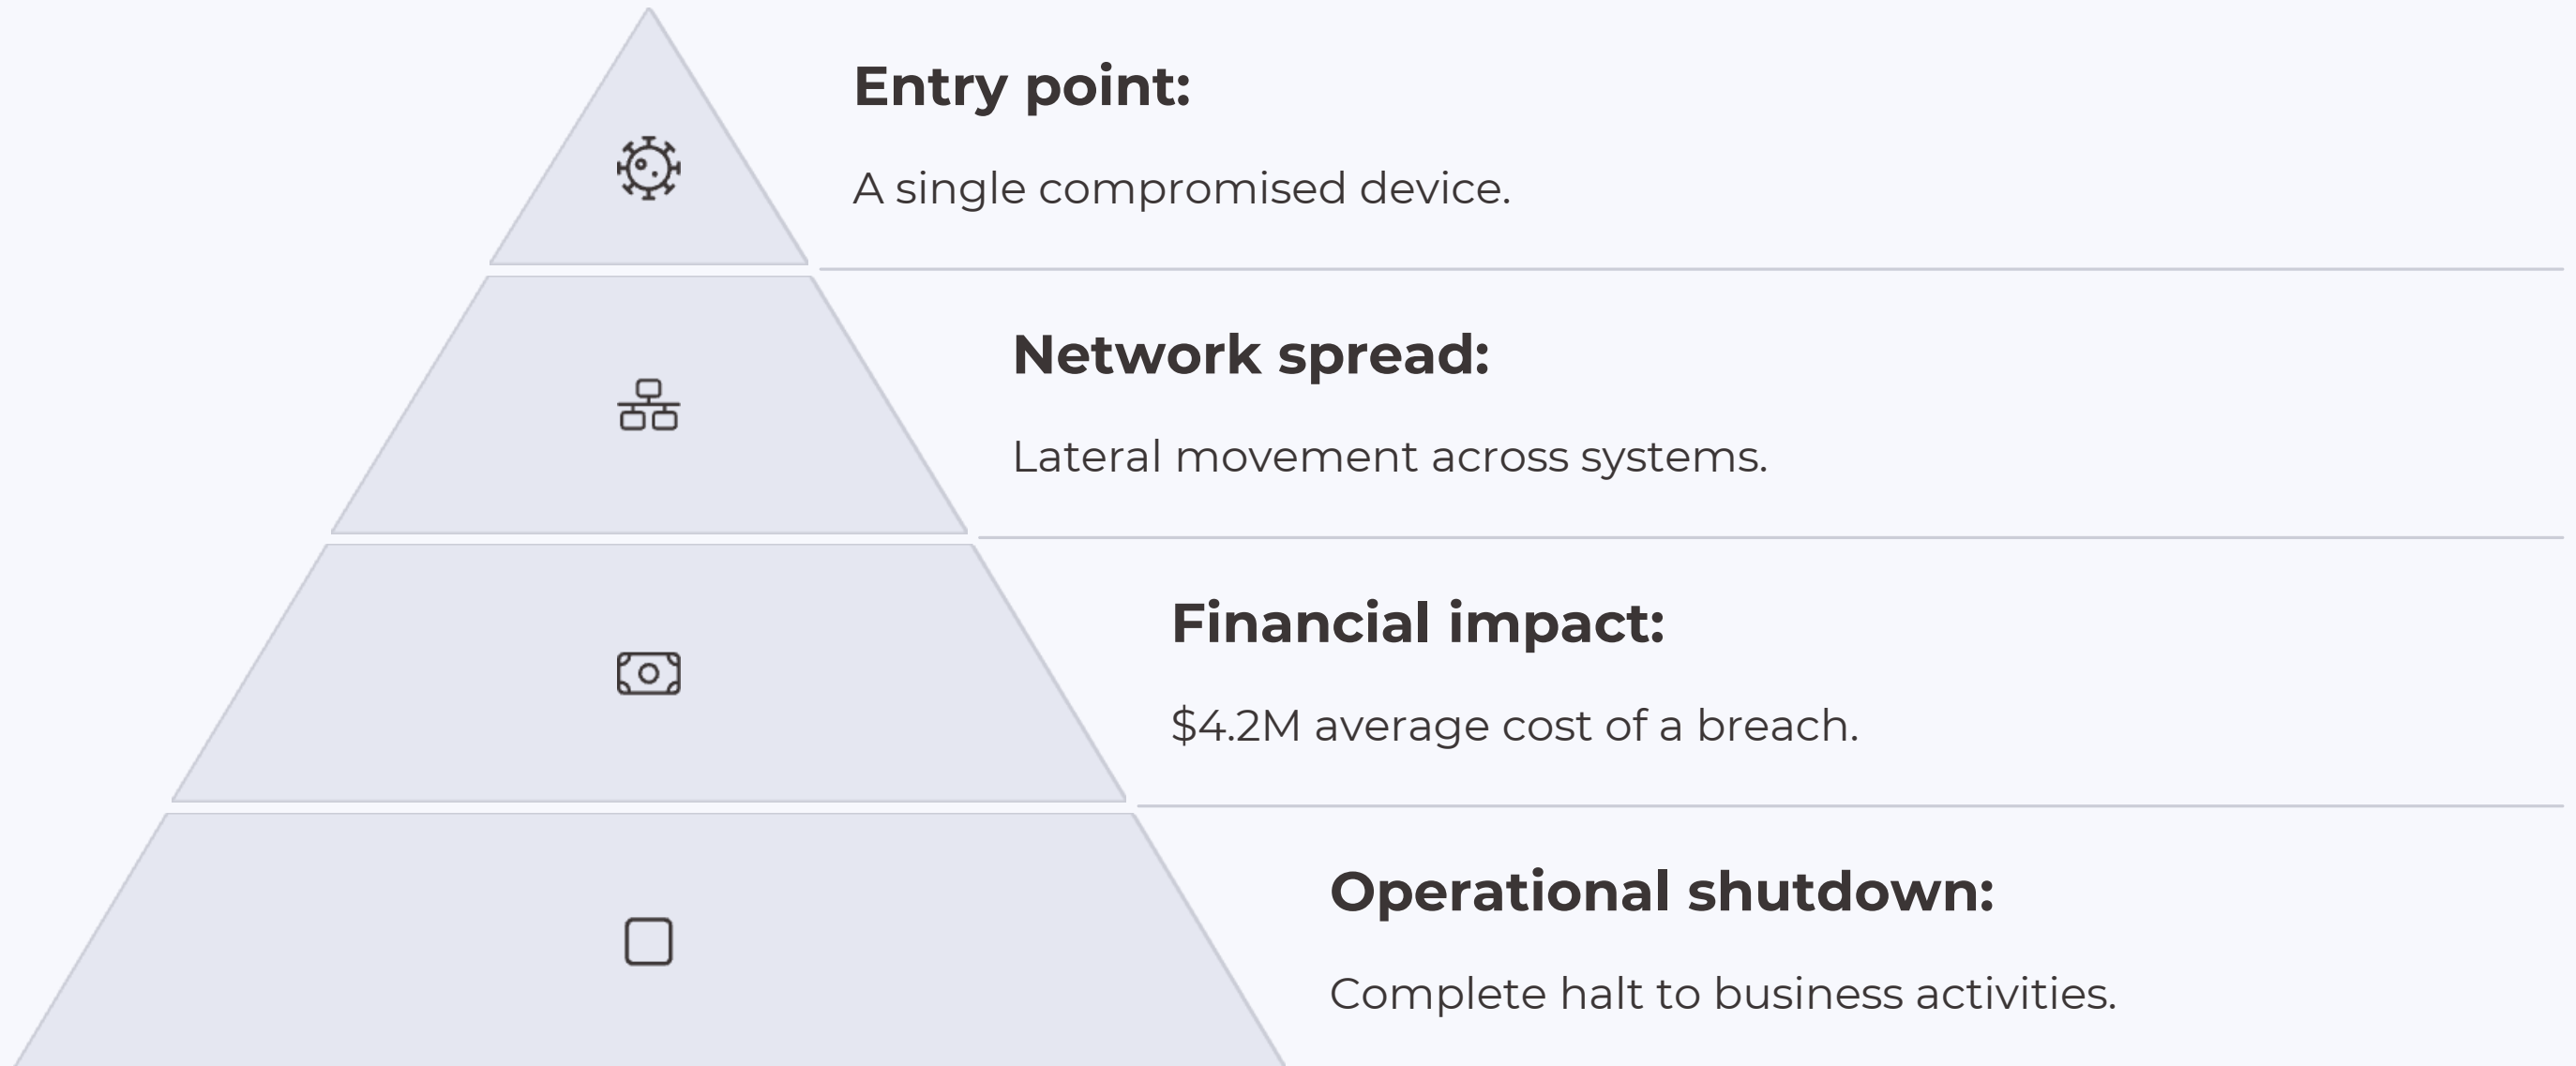

Decisions based on real-time insights.

Connectivity powers productivity ...

The ripple effect of mobile vulnerabilities

**35% of devices
improperly secured.**

**Could we turn this vulnerability
into a competitive advantage?**

Could you enhance your mobile policies?

1

Device Sourcing

2

BYOD vs. Corporate

3

Security Protocols

4

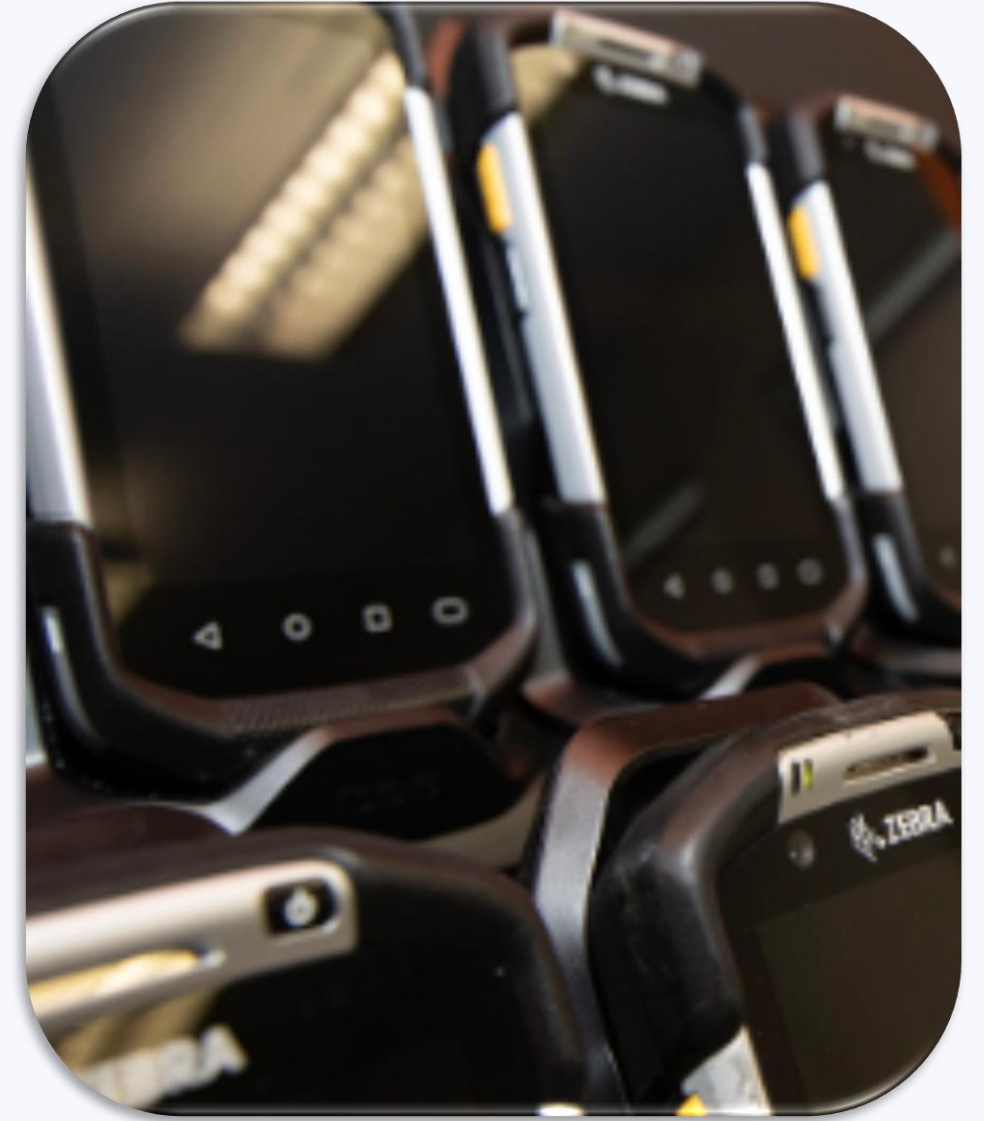

Automated Enforcement

MDM expertise:
**Do you have the right
knowledge in-house?**

Lifecycle management: Are you considering the full device lifecycle?

Security:

Cost centre or growth engine?

Risk mitigation

Prevent costly breaches.

Trust building

Strengthen partner confidence.

Maximize uptime

Keep operations running.

Enable Innovation

Deploy new tech safely.

How well do you understand the digital risks across your supply chain—from suppliers to customers?
