

Night Shift – Warehouse Supervisor

Our client is a well-known and respected leader within their sector of industry. In order to support the growth, they have experienced over the last couple years, they have asked Sean Baker of MacDonald Search Group to assist in finding them an exceptional Night Shift - Warehouse Supervisor.

Reporting to the Warehouse Manager you will be responsible for leading, coaching and directing a high functioning team in the receiving, storage, picking, shipping functions of both inbound raw materials and outbound finished goods in the warehouse of this fast-paced manufacturing facility. You will lead through motivation and be responsible for the daily supervision, evaluation and training to ensure a safe and productive work environment. You will also be accountable for monthly inventory audits, KPI measurement and fostering a culture of continuous improvement.

Specifically the successful candidate will have:

- 2 years of supervisory or people management experience
- 5 years of total experience working in a warehouse, distribution or manufacturing center.
- Willing and able to work on the floor and lead by example.
- Excellent leadership and management skills.
- Excellent organizational and communication (verbal and written) and interpersonal skills.
- A can-do attitude with an ambition to get the job done
- A minimum of a Grade 12 education

The shift for this role is 9:30PM to 6:30AM

If you are looking for an opportunity to make your mark, then this is the job for you.
