

MacDonald Search Group

Our client, a global leader in the industrial electronics and heavy electrical equipment sector has asked Sean Baker of MacDonald Search Group to assist them in the recruit for an **Operational Excellence Manager** in Calgary.

We are seeking an energetic, driven and hardworking professional to coach and coordinate various continuous improvement activities across all areas of the facility. You will work closely with the Plant Manager to understand corporate strategy around continuous improvement in an effort to help guide the plant along a pathway to excellence.

Specifically, the successful candidate will have:

- Post secondary education in manufacturing, industrial/electrical/mechanical engineering.
- 5+ years of work experience dedicated to the field of Continuous Improvement in a production or manufacturing environment.
- Excellent track record of seeing CI projects through to completion
- Above average organizational, analytical and communication skills.
- Lean or Six Sigma Certification is an asset.
- The suitable candidate must be organized, well-spoken and able to present ideas to stakeholders.
- Courage to challenge the status quo
- Have great passion for making a difference.

If the opportunity to make a difference and work with a recognized industry leader is of interest to you, please reply in confidence.

To apply directly please email your resume to: sean@macdonaldsearchgroup.com and ensure your subject line reads exactly as follows: **Operational Excellence Calgary**
