

DISTRIBUTION OPERATIONS MANAGER

Our client provides dedicated third-party warehousing and logistical services in the food/beverage consumer goods sector. As they build out their services and increase their foot print, they are looking to add a Distribution Operations Manager to the team in Calgary. As a successful leader, you will have the opportunity to work closely with the GM to lead the team of supervisors and staff in this very high volume, fast turning 24/7 distribution operation.

Responsibilities:

- Developing and implementing strategies to improve the quality process and ensure customer service goals are exceeded.
- Review and create forecasts, generate operational plans to accommodate fluctuating volumes
- Training, recruiting and goal setting for staff to help achieve objectives.
- Oversight of the team responsible for all floor activities
- Help to set inventory, production and transportation plans daily.
- Identifying and correct any work place hazards that may arise.

Requirements:

- 7+ years warehouse management experience, preference from food grade facility
- Experience from a fast paced, 24/7 operation is a must
- Strong leadership and management capabilities.
- Advanced critical thinking and analytical skills
- Ability to train and coach staff
- Solid understanding and ability to provide training on safety equipment
- excellent organizational, communication and computer skills
- the ability to multi-task, plan and re-plan accordingly
- *Previous experience from a Unionized operation is a preference.*

We are not looking for the average candidate who can just do the job! We are looking for an exceptional candidate who can exceed expectations! If this sounds like you, we encourage you to apply. To apply directly please email your WORD or PDF resume to:
