Be part of something altogether life-changing!

Working at Cytiva in the Life Sciences industry means being at the forefront of providing new solutions to transform human health. Our incredible customers undertake life-saving activities ranging from fundamental biological research to developing innovative vaccines, new medicines, and cell and gene therapies.

At Cytiva you will be able to continuously improve yourself and us – working on challenges that truly matter with people that care for each other, our customers, and their patients. With associates across 40 countries, Cytiva is a place where every day is a learning opportunity – so you can grow your career and expand your skills in the long term.

Cytiva is proud to work alongside a community of nine fellow Danaher Life Sciences companies. Together, we're pioneering the future of science and medicine, developing products that enable researchers in the fight to save lives.

We are looking for a Leader for our growing Operations team in Burnaby!

- Develop and strengthen existing supply chain strategies, frameworks and tools that are integral to Vanrx's growth.
 - Lead, develop and support the overall direction for our Procurement, Sourcing, and Warehouse & Logistics departments.
- Develop and refine (current) KPIs, benchmarks, and other measures of success for Vanrx's supply chain.
- Work with and support Sales Operations to ensure Vanrx continues to meet commercial schedules as planned.
- Use analytics to drive decisions, develop and execute sourcing strategies.
- Provide oversight of the materials warehouse, distribution, and storage to ensure accuracy.
- Be a stakeholder in product development discussions and ensure the supply chain is well represented.
- Support the identification and implementation of system initiatives to ensure continuous improvement projects and efficiencies are gained.
- Apply Lean Manufacturing and Six Sigma tools to reduce waste and improve quality.
- Provide thought leadership to support increased growth commercialization as it relates to supply chain and materials management activities.
- Identify, manage and lead continuous improvement projects to achieve or exceed operational metrics.
- Act as a key stakeholder in key initiatives across the company, advising on prioritization and design outcomes.
- Define and establish clear objectives and expectations, routinely provide direct feedback for performance management and development.
- Lead, motivate and mentor direct reports in achieving their respective goals.
- Identify projects and recommend appropriate courses of action (e.g., discontinuation, outsource, process improvement) to maximize profitability and supply.

Who You Are

- Undergraduate degree in business, engineering, or a related discipline; MBA valued and would be an asset.
- 10+ years of progressive experience within a technical manufacturing environment.
- Experience in a leadership role within Operations or Supply Chain.
- History of managing a complex global supply base, including Asian and European supply markets.
- Strong knowledge and experience of international trade logistics, including requirements of commercial trade documents.
- Understanding of ERP Systems and Engineering Change implementation processes, including data management is an asset.
- Experience with lean manufacturing and process improvements.
- Exceptional leadership, interpersonal and communication skills.
- Excellent project management skills.
- Exceptional negotiation skills and proven ability to draft strategic agreements.

#LI-AS7

When you join us, you'll also be joining Danaher's global organization, where 69,000 people wake up every day determined to help our customers win. As an associate, you'll try new things, work hard, and advance your skills with guidance from dedicated leaders, all with the support of powerful [Danaher Business System](#) tools and the stability of a tested organization.

At Danaher, we value diversity and the existence of similarities and differences, both visible and not, found in our workforce, workplace and throughout the markets we serve. Our associates, customers and shareholders contribute unique and different perspectives as a result of these diverse attributes.

If you've ever wondered what's within you, there's no better time to find out.
