

**Procurement Lead, Digital Transformation
18 Month Temporary Position
Economic Analysis**

Centrally located in downtown Vancouver, the British Columbia Securities Commission administers British Columbia's Securities Act. Our mission is to foster fair and efficient capital markets and a competitive securities industry. Through smart rules, diligent oversight, strong enforcement and reliable guidance, we act as guardians of the province's investment marketplace, striving to make BC a place where people can invest with confidence and companies can flourish. We are an independent agency accountable to the legislature and the public through the Minister of Finance.

The BCSC is looking for an experienced and engaging strategic leader to lead the procurement process for systems and implementation resources for a mid/long-term business transformation strategy. The business transformation strategy scope encompasses a full range of technology enablement for our regulatory mandate that will make powerful tools available to staff. This will involve procuring a platform for functionality such as workflow, case management, and entity management, and building out an advanced analytics infrastructure. We are recruiting for a Procurement Lead, Digital Transformation that will dedicate their time to this ambitious investment program.

Reporting to the Chief Economist, you will be responsible for bringing together a wide variety of internal experts to work with an external consulting firm hired to develop the RFP and lead the procurement cycle for software components and a systems integrator. You will also lead change management activities related to keeping staff, the executive, and the Board apprised of progress on the procurement and the implementation launch.

You have a minimum of 5 years experience in strategic roles that contributed directly to one or more successful large scale, complex digital business transformation procurement initiatives. You have experience in partnering with technology and business stakeholder groups to execute a procurement process that has decision-making rigor and reduces risk through RFP design, validation work, and contract review .

Besides a sound knowledge of large-scale systems procurement cycles, B.C. government procurement requirements, and past involvement in change management is an asset. Excellent communication skills (both written and verbal) and strong strategic thinking skills are necessary qualifications.
