Position Title: Supply Chain Manager

Position Purpose:

Atlantis Submarines is seeking a supply chain professional to join our team in Vancouver, BC. As the Supply Chain Manager, you will be responsible for the end-to-end supply chain process for all components and materials used by Atlantis Submarines. You will also be responsible for managing relationships with our domestic and international suppliers, forecasting demands, and developing strategies to optimize our supply chain operations.

About Atlantis:

Atlantis Submarines International (ASI) is the pioneer and world leader in passenger-carrying submarine technology and in the operation of passenger carrying submarines. Atlantis was established in 1983 to develop the world's first tourist submarine. Since commencing passenger operations in December 1985, Atlantis has carried in excess of 17,500,000 passengers and completed over 575,000 dives. ASI's primary technical roles include:

- On-going development and maintenance of the Atlantis technology
- Provision of equipment and technical support for operations
- Regulatory management
- Operational audits and periodic inspections

ASI supports Atlantis Submarines operations in the following locations:

- Barbados Since December 1986
- Kona, Hawaii Since January 1988
- Guam Since July 1988
- Aruba Since September 1990
- Oahu, Hawaii Since September 1989
- Maui, Hawaii Since June 1991
- Cancun/Cozumel, Mexico Since June 1994

Visit our website at www.atlantissubmarines.com for more details.

Duties and Responsibilities

- Manage and develop our strategy to ensure a cost effective and efficient supply chain.
- Manage and forecast inventory for current and futures projects.
- Work with freight forwarders and transportation companies to ensure timely shipments.
- Ensure compliance with regulatory requirements related to supply chain operations.
- Manage relationships with suppliers and negotiate contracts.
- Manage all activities related to sourcing and procurement of components and materials.
- Collaborate with the Engineering Department and Atlantis licensees and partners.

Requirements:

- Degree or Diploma in Supply Chain Management, Business Administration, Engineering or similar field.

- SCMP designation or equivalent.
- 3 to 5 years' experience in supply chain management.
- Experience working with international suppliers and worldwide shipping and logistics.
- Proficient in Microsoft Office Suite products and Quickbooks.
- Understanding of manufacturing processes and electrical/mechanical systems.
- Knowledge of domestic and international regulatory requirements related to supply chain operations.
- Strong communication and organizational skills.

Compensation:

- Commensurate with level of experience.
- Comprehensive benefit package included.
- Three weeks' annual vacation.
- Hybrid remote schedule.

Please submit cover letter and resume to danielhurd@atlantissubmarines.com. We thank all applicants in advance; however, only those selected for an interview will be contacted.
