Senior Category Lead (Engineering and Technical Services)

Number of positions: 1

Job Location: Edmonds 15

Employment type: Temporary

Region: Lower Mainland

Hours of work: Full-time (37.5 hrs/wk)

Flexible Work Role: Hybrid

Annual salary: \$ 131,100.00 - 165,800.00

What you'll do

BC Hydro's Supply Chain function is integral to keeping the business running and the lights on. BC Hydro has transformed its Supply Chain model through the implementation of a full category management capability to ensure the needs of the business' are met in terms of quality, safety and reliability in what we buy, ensuring for the optimal total cost of ownership and creating mutually beneficial supplier relationships. The Category Management Supply Chain team is accountable for developing and implementing strategies for key categories that account for over 80% of BC Hydro's annual multi-billion dollar expenditures. Our job is to ensure BC Hydro is getting the best overall value through strategically managing categories and suppliers to ensure performance is optimal and risks are mitigated.

Categories are organized into six portfolios: Enterprise, Technology, Major Equipment, Engineering & Technical Services, Materials & Logistics, and Field Support Services and our category strategies enable us to be smart about what and how we buy from whom, and in how we work with our suppliers, in order to deliver on BC Hydro's vision, mission and corporate priorities. One of our focus areas is enabling the shift to use of electricity to help with greenhouse gas (GHG) reductions and support BC's GHG emission target reductions. This will require building infrastructure from more distribution lines to electric vehicle charging stations. To make this happen BC Hydro can't do it alone – we need more suppliers and to procure products and services.

We are seeking to hire a Senior Category Lead to work within the Engineering and Technical Services Portfolio. The Senior Category Lead leads cross functional teams to develop, implement and sustain our strategies and works closely with business groups like Engineering, Operations, PCM, and Project Delivery.

This senior supply chain role is responsible for leading cross-functional teams to develop, implement, and sustain long-term category strategies. The successful candidate will work closely with internal stakeholders and external suppliers to ensure alignment with business objectives and operational excellence. A strong emphasis is placed on collaborative stakeholder engagement and partnership building to deliver long-term value and strategic strength in categories.

The Senior Category Lead will often be managing multiple, complex categories with potential for significant change and high impact issues. Doing so effectively, and with minimal day-to-day managerial support, requires expert stakeholder management and business acumen. Senior Category Leads will be expected to provide coaching and mentorship to multiple cross-project team members often serving as the first point of contact for guidance on Category Management or escalation of issues.

Our ideal candidate is motivated to achieve results for BC Hydro, support the success of their team, and build mutually beneficial supplier relationships. They are pro-active, take ownership and are adept at creating and using influence. Candidates will have a proven track record of both developing and executing value-add category, supplier, or similar business strategies to achieve specific business outcomes. Key to their success is the ability to cultivate and oversee relationships among internal business groups, stakeholders, and suppliers. They must demonstrate proficiency in organizing and managing projects and constraints to ensure the effective integration of sourcing, supplier relationship management, contract management, and business process improvement plans.

High Level Outcomes:

- * Ensures assigned categories are operating in a way that meets performance objectives and in alignment with approved strategies. This includes ensuring plans are in place to manage risks and anticipate future trends, needs, changes.
- * Leads/Manages development and implementation of: category strategies, sourcing, business process improvements, supplier relationship management (SRM), benefit realization plans and other category management processes; supports the business in contract management.
- * Is recognized as a Category Expert for assigned categories. Knowledgeable in BC Hydro's current and likely/possible future business requirements. Understands the current and future supply market.
- * Contributes to the sustainment and advancement of BC Hydro's category management framework and processes.

What you bring

- * University degree Bachelor's (MBA or Master's or other additional education preferred)
- * One or more professional designations and/or certifications (e.g. SCMP, APICS, PMP, P. Eng, etc.) is a strong asset.
- * Minimum of 8 years strategic level related business experience or equivalent combination of education and experience. Preference given to candidates with strong category management experience within a large, complex organization.
- * An equivalent combination of education, training and experience may be considered.
- * Experience planning and simultaneously managing multiple complex / large projects with ambitious deadlines and deliverables.
- * Highly skilled in change management and excellent interpersonal skills, communications, relationship and coalition building with a high degree of persuasive influence skills.
- * Experience leading cross-functional project teams in a complex business environment, with multiple stakeholders and strategic considerations.

The following Skills/Abilities/Competencies are associated with success for this role:

Strategic Thinking: Able to effectively deal with varied perspectives and the complexities of our company. Shows sound judgment and business acumen as analysis, trade-offs and decisions are informed by a broad, comprehensive, and long-term view - while taking into consideration internal and external stakeholders. Has a strategic thinking mindset reflected in their day-to-day work; can "connect the dots" understanding how one issue or decision impacts others.

Execution and Working Smart: Plans ahead, solves problems, increases efficiency, and gets things done safely. Looks for ways to make process improvements by being open to employee recommendations for innovations that could positively impact our company.

Relationship Development and Collaboration: Intentionally develops collaborative relationships within, and external to, BC Hydro in support of business objectives. Understands the value of workforce diversity and the importance of including different perspectives to inform solutions to business problems. Models a one-hydro approach, ensuring that decisions support the broader needs of the organization.

People Leadership: Effectively uses a variety of strategies to enable team members to be as effective and productive as possible, holding individuals and teams accountable. Explains why change is needed, supports others through change, and builds an effective team. Motivates and inspires others and models positive leadership practices.

Communication & Presence: Communicates effectively with a variety of stakeholders in writing (briefings, presentations) and verbally (meetings, one-on-one). Knows the audience and can adjust the communication accordingly, adapting to questions and audience needs. Projects a positive and poised presence; is influential, present and attentive.

Self-Management: Manages stress, a variable workload and competing demands. Promotes and models resiliency. Is self-aware and understands how their behavior impacts others. Acknowledges mistakes and takes responsibility for their actions and work. Is open to learning and demonstrates, through their actions, the importance of self-development.

Business Acumen: Understanding of BC Hydro's business context. Able to accurately assess complex Hydro needs and understand how the Category Management practice can address those needs. Apply sound judgement and pragmatic approach to achieve required progress and grow the Category Management practice.

In addition to the above competencies, we are looking for the following in our candidates:

- * Quick learner with a growth mindset and team orientation.
- * Accountable influencer that shapes perspectives and drives results.

* Planning & Project Management to establish plans and manage the plan(s) and resources to achieve the goal(s) and outcomes.

What we offer

- A comprehensive benefits package
- A minimum of 15 paid vacation days
- A lifetime pension
- Flexible work model, depending on your role type
- Training and development courses
