

Location: Brampton, ON

Position: Parts & Inventory Manager

File Number: 2567

Our client is a **leader** in the **industrial maintenance sector** with operations across **Canada**. They have an immediate need for a **Parts & Inventory Manager** to be based in **Brampton Ontario**. The position is responsible for tracking and maintaining all inventory levels, purchase orders, database maintenance and physical inventory counts. This is a “hands-on” role that includes supervision as well as overseeing all receiving, stocking, processing of invoices. The position involves working very closely with all technicians to ensure smooth and error-free service to the clients.

Requirements for the position include a **minimum of two years’ experience** in a **parts and inventory supervisory capacity**, as well as a “can-do attitude”, and the desire to grow within the organization.

This position comes with an **excellent compensation and benefit package**.
