

Supply Planner

We are so excited to represent our client on this search!

Our client is a thriving e-commerce company on a mission to do BIG things. They are an employer of choice, offer an amazingly flexible and collaborative environment and lead with passion. They are in need of a **Supply Planner** who truly enjoys working on a large portfolio, values autonomy in their role and has small business experience.

The Role

The goal of this role is to ensure maximum in stock management with the most efficient and cost-effective coverage of materials inventory. You will add tremendous value to if you have hands-on experience in operations, inventory planning and management as well as a strong understanding of ingredient and product life cycles. This role reports to the Manager of Supply Chain and Demand Planning.

- Identify, react and manage changes in demand compared to changes in availability to manufacturer
- Solve and recalculate the system to establish shorts, risks and excess
- Assess and validate what has changed from the previous position on a bi-weekly basis and communicate risks to manager when needed if exceptions exceed scope of control
- Daily inventory assessments to determine shorts, risks and excess to maintain optimal inventory levels across channels
- Assess replenishment and supply error by SKU in vendor performance and define sufficient safety stock
- Purchase materials to carry adequate safety stock
- Manage the inventory from an obsolescence and aged perspective
- Vendor management and compliance responsibilities and monthly vendor compliance reporting to manager
- Monthly reporting to finance on rolling 12 month horizon purchase plans and budget to actuals reporting on purchases
- Monthly obsolescence and aged inventory report
- Systems management (MOQ, lead times, safety stocks, costs and purchase prices)
- Own new launch management from an inventory planning perspective, working closely with Commercialization and Marketing Project Managers to coordinate with vendors, all materials required as defined in each step of the stage gate process and ensure launch at the pre-established date

The Perks

- Competitive compensation package
- 4 weeks vacations
- Comprehensive health and wellness benefits
- Cell phone and transportation subsidy
- Flexible hours
- Your choice of laptop
