

Location: Kitchener ON

Position: Operations Manager

File Number: 2587

Our client, a well-established leading logistics provider based in the Kitchener area, is looking to add an Operations Manager to their team. Providing LTL and FL Cross Border, Domestic and Expedite services, the company prides itself on its commitment to premier customer service and exceptional communication. A newly created role reporting to ownership, this position is responsible to manage the day-to-day operations of the business to meet customer expectations. The right person will have significant operational experience in a Freight brokerage, 3PL environment coupled with a passion for customer service. In addition, the right person will have the leadership skills and analytical ability to build the teams, systems and processes needed to support continued growth. Experience with UFOS Software is considered an asset. This position offers a strong compensation package and significant opportunities for career growth.
