

Argentus is working with one of our longstanding clients in the Consumer Packaged Goods space on another new impactful role. This Fortune 500 Company is known for its extraordinarily wide range of diverse products and brands, and has been recognized over the years for its consistent supply chain and organizational excellence. Today, they're looking for a Facilities Manager!

Working out of the company's facility in Guelph, ON facility, this individual will join the site leadership team in providing overall direction and continued operational excellence for the facility itself. This means leading the Facilities Management team, providing coaching, mentorship, goals development, and performance reviews to drive team success. In addition, this individual will work with a variety of external third party service providers, building relationships to ensure that facilities maintenance, upgrade and repair are executed to a high level, with a continuous improvement culture in place. You will develop metrics and best practices around facility maintenance, implementing these plans to fit best practices from the perspective of manufacturing and quality regulations. You will work with the capital projects team to execute capital improvements to the facility, and gather site data and metrics to support the regional and global facilities group.

In short, this is a great role for a mid-career Facilities Management professional, skilled with leading a large, complex facility and team. At least 5 years of Facilities Management experience is a must for this role, as is a demonstrated track record of leading a team to success. In addition, a P.Eng designation is a strong asset for this role. If this description fits your background and you're looking to make a move, reach out to Argentus today! Call 416 364 9919 or send an email with your current resume to recruit@argentus.com.
