

# **Business Analyst II - Forecaster, Purchasing and Inventory Management** - PLA05606-21

## **Description**

**Create better business outcomes with your analytical acumen and creativity.**

## **Join our team**

Join a cutting edge Purchasing and Inventory team responsible for driving the best out of our suppliers, to serve our internal and external customers. We innovate by creating and executing initiatives that deliver best-in-class performance and practices for TELUS' vital infrastructure builds.

## **Here's the impact you'll make and what we'll accomplish together**

As a Business Analyst II - Forecaster, you will have a direct impact on our ability to deliver on our commitment to our customers by ensuring our internal and external partners have the materials they need at the right time and place.

## **Here's how**

- Optimizing inventory levels to ensure proper balance is maintained between customer service levels, inventory investment and operational efficiencies, including ATP (Available to Promise) and inventory turns
- Manage product life cycle from introduction to obsolescence
- Solve day-to-day Operational issues, supporting 95%+ on time Delivery of materials
- Collaborate with all demand channels and cross-functional teams for demand planning and forecasting
- Continuously improve communication with our internal stakeholders, to deploy the fastest and most reliable networks in Canada

## **Qualifications**

**You're the missing piece of the puzzle**

- A passion for delivering an exceptional customer experience and continuous improvement
- Expert knowledge with inventory management principles and concepts including min/max replenishment strategy, forecasting, and statistical analysis
- Intermediate to Advanced skills in Microsoft (MS) Office, Excel and PowerPoint
- Ability to analyze data information, translate into findings, and convey into a clear compelling story with recommendations/solutions to a diverse group of stakeholders
- Strong communication (verbal and written), presentation, influencing and relationship building skills
- Strong collaboration and engagement skills
- Proven track record to meet deadlines while handling shifting priorities
- 3-5 years of experience in supply chain management with an emphasis on inventory management
- Bachelor degree is required

**Great-to-haves**

- Experience with SAP MM is an asset - PMAC or APICS certified or currently enrolled in either program is an asset

**A bit about us**
