Position and Responsibilities

Reporting to the Lead, Project Materials, you will manage receipt, tracking, storage, staging and issuing of project materials and equipment arriving from suppliers and contractors to the northern Saskatchewan site. You will be responsible for ensuring delay free availability of all project materials and equipment at the workface when needed. You will also assist the construction management team to meet project schedules and timelines. This is a one-year temporary, staff position.

Education and Qualifications

Requirements of the position:

- Diploma in business, materials management, or a related discipline
- Eight to ten years of experience in materials management/warehousing/logistics
- Equivalent combination of education and work experience will be considered

Assets:

- Previous SAP experience
- Transportation of Dangerous Goods Certificate

Preference will be given to Residents of Saskatchewan's North.

Safety is a top priority at Cameco. Successful candidates for all positions at safety-sensitive sites or in safety-sensitive positions must take and pass a substance test (which includes marijuana testing) as a condition of employment. Marijuana remains in a user's system for about 30 days, so applicants who recently used marijuana recreationally should not expect to pass a substance test.
