

## **Category Manager (41134)**

***Location: Saskatoon, SK***

### **About Us**

Cameco is one of the largest global providers of the uranium fuel needed to energize a clean-air world. Utilities around the world rely on our nuclear fuel products to generate safe, reliable, emissions-free nuclear power. Cameco's corporate office is based in Saskatoon. We have mining operations and projects in northern Saskatchewan, Kazakhstan, the United States and Australia. We are also a leading supplier of uranium refining, conversion, and fuel manufacturing services from our operations in Ontario.

### **The Role**

Join Cameco and play a pivotal role in optimizing our Materials, Repair, and Operations (MRO) category strategic spend and driving long-term business success. This role involves conducting market research for critical chemicals, fuels, and spare parts; providing insights to senior management on contracting strategies; and ensuring compliance with regulatory requirements. Supply chain management is currently focused on driving efficiency through automation within the MRO category and this role is instrumental in achieving those objectives. You will also focus on cost optimization, risk mitigation, and continuous improvement, while mentoring and developing your team of category specialists to achieve targets.

### **In this role, you will:**

- Outline business unit requirements, objectives, challenges, and value drivers for the MRO including critical chemicals, reagent, and fuels
- Manage and optimize spending in MRO and sub-categories
- Manage and develop a team of contract and category specialists
- Develop and implement category strategies for medium and long-term (1-5 years)
- Develop vendor segmentation process for Cameco and implement the process for MRO category
- Understand Business Unit requirements for Supplier Relationship Management (SRM) and contribute to the development of SRM business process and technology road map
- Conduct market research to identify trends, risks, and opportunities
- Align category strategies with long-term business goals
- Lead and implement tactics to support category strategy
- Organize cross-functional teams to implement tactics
- Charter tactics as projects with defined stakeholders, team members, actions, and outcomes

- Lead cross-functional teams to deliver category-specific projects
- Report on category performance, including risks, savings, updates, and supplier metrics
- Provide insights and recommendations to senior management on category trends, risks, and performance

**Required:**

- Bachelor's degree within a related field (business/commerce)
- 10+ years of procurement and supply chain management experience, including experience in category management
- Equivalent combination of education and work experience considered
- At least quarterly travel to northern Saskatchewan and Ontario sites is required

**Recommended:**

- Experience in mining or natural resources preferred

**Cameco is proud to offer a competitive total reward package which includes:**

- Competitive compensation program with base and variable pay
- Flexible health, drug, dental, and vision plan with a health spending and personal spending account
- Fixed benefits including employee and dependant life, AD&D, disability benefits and paid vacation leave
- Employee & Family Assistance Programs
- RRSP and RPP matching program
- Career development opportunities
- Relocation costs

Cameco is an employment equity employer and aims to achieve gender parity, and as such, preference will be given to qualified members of equity groups. We are strengthened by the diverse backgrounds of experiences and encourage applicants with various levels of expertise to apply, as equivalent combination of education and work experience are considered.

The details of relocation or potential for flex work arrangement will be discussed with you in the recruitment process.

This position is eligible for the employee referral bonus.
