

Job Title: Category Mgr, Mill Processes - Potash

Pay Band: J

At Nutrien, our Purpose is to **grow our world from the ground up** and we do so with safety and integrity as our core values. Nothing is more important than sending our people home safe, every day.

Nutrien is a leading provider of agricultural products, services, and solutions. With approximately 23,000 employees world-wide, we are the largest producer of potash (by capacity) and one of the world's largest producers of nitrogen and phosphate. We also operate a leading agriculture retail network that services over 500,000 growers.

We harvest the best. Diverse views and experience make us strong. We look for people who have a safety-first mindset, who are collaborative team players, who deliver on their commitments, who are innovators in search of a better way, and who believe in inclusion.

Working at Nutrien will provide you an opportunity to help us *Feed the Future*, and grow your career.

The Category Manager, Mill Processes – Potash, reporting to the Director, Procurement – Potash and located in Saskatoon, Saskatchewan, is responsible for leading development and execution of sourcing and business strategies which create value and efficiencies for the Potash Business Unit (BU) within the Mill Processes category. This position is **not** available for remote work and requires the successful candidate to be travelling to and be on site 25-50% of the work hours.

What you will do:

- Create sustainable value and manage the Potash-focused supplier relationships within the Mill Processes Category, which includes Potash BU critical Chemicals and Reagents and Mill Process Equipment sub-categories
- Responsible for strategic commercial aspects and overall supplier relationship management of key suppliers within the Potash Process Chemicals and Reagents, and Process Equipment categories, among other related sub-categories within the Potash Business Unit (BU)
- Ensure local suppliers, community partnerships, Equity, Diversity and Inclusion, Environmental, Social, and Governance strategies and relationships are prioritized and actioned in a collaborative fashion to create sustainable, long-term value for Nutrien and the communities in which we operate
- Develop, implement, and manage tailored strategies and supplier performance expectations in alignment with the Potash BU strategic goals and business needs, and expectations of sustainable long-term relationships to enable safe, reliable production
- Leverage data and analytics, market insights, and stakeholder feedback coupled with the short- and long-term Potash Business Unit needs to craft and execute impactful business cases
- Lead critical commercial and supplier performance management engagement, as well as provide strong leadership and support to stakeholders
- Collaborate with peer Category Management teams to address key Nutrien-wide synergies and ensure value and service level performance expectations are consistently maintained

What you will bring:

- Bachelor's degree required in Business, Engineering, or similar discipline
- Certifications in Procurement (SCMP/CPSM), Project Management Professional (PMP), Inventory Management (CIPS), Lean / Six Sigma, or Operational Planning are considered strong assets
- Minimum 10+ years relevant experience in operations, strategic sourcing, supply chain management, project management, engineering, or equivalent
- The ideal candidate will have a practical depth of exposure to, or direct experiences within, mill process operations and projects, and sourcing or category management. For the right candidate we are willing to train aspects of this role.
- Demonstrated strong initiative, work ethic, dedication to building relationships, constructing and executing practical and effective strategies
- A curious, empathetic, and collaborative approach to leading people and problem solving
- Strong ability to build and maintain trusting relationships while setting healthy boundaries and addressing challenging and complex issues
- A continuous improvement and change leadership mindset to align with stakeholders to achieve critical business goals and objectives
- Ability to build, support, and lead a dynamic high-performing team who will similarly engage with internal and external stakeholders in a dynamic and positive way to identify and realize value, challenge the status quo, and implement creative ways of working aligned to Nutrien's core values
- Strong interpersonal and communication skills and critical thinking abilities, with the ability to develop and maintain credibility and operate effectively as a member of a team in a highly collaborative environment
- Robust understanding of, and practical experience with, enterprise asset management systems (SAP / Oracle), spend management and sourcing tools (Ariba), and data insights tools (SAP Hana) is considered an asset
