

Purchasing Manager – Capital
Location: Regina, SK

ABOUT US

The Brandt Group of Companies – headquartered in Regina, Saskatchewan, Canada – is Canada’s largest privately owned manufacturing and distribution company that serves a growing international audience in industry-leading brands such as John Deere (Construction, Forestry & Agricultural), Peterbilt Trucks, Material handling equipment, TOPCON, DITCHWITCH, WIRTGEN, rail, steel, energy and many more. Our mission is focused on enabling customer success by providing practical and reliable equipment solutions and support.

SUMMARY

Brandt Corporate Services Ltd. is looking for a **Purchasing Manager of Capital** with strong experience in strategic sourcing, contract negotiation, and supplier management to join our growing team in Regina, SK. The Purchasing Manager of Capital will lead in the development and execution of Capital sourcing requirements for all Brandt Group of Companies spread throughout North America, New Zealand and Australia. The role will collaboratively use supplier and market data, and perform activities that support Capital projects in planning, sourcing, contracting and supplier relationships. This position will assist or lead in planning and execution of sourcing projects and interact with other Procurement groups and stakeholders to implement relevant strategies for capital spends as assigned. This position will create and manage leveraged agreements, establish strong links with business stakeholders and suppliers to facilitate and implement planning, sourcing and contracting pursuits.

PRIMARY RESPONSIBILITIES

- Management and negotiation of current contract portfolio and implementation of new sourcing initiatives.
- Assist in the development of long-range sourcing strategies for assigned projects or commodities.
- Become subject matter expert in the supply market for assigned areas. Advise current and future market trends.
- Use supplier and market data to incorporate business unit requirements, develop sourcing strategies, and optimize Brandt’s competitive position.
- Lead sourcing activities, supplier selection, supplier negotiations, and create and monitor supplier agreements.
- Research and identify potential suppliers for Brandt business units.
- Assist in disposal and resale of capital assets.
- Administer transition between capital purchase and MRO.
- Identify, implement, and manage supplier relationships to support Brandt’s business unit requirements.
- Analyze spend portfolio and determine overall procurement approach for assigned areas based on magnitude of dollars, strategic importance, and opportunity for value delivery.
- Master the contracting process (negotiation, contract preparation and administration), tactical and transactional activity for assigned areas.

- Deliver commercially sound supplier contracts that meet business units' technology, quality and cost goals that provide optimum protection of company assets.
- Interfaces with strategic suppliers and business units to identify opportunities to reduce costs, standardize goods or services, adapt new supplier technologies, solve problems involving pricing or supplier performance.
- Identify and execute opportunities for procurement cost reduction and supplier performance improvement, including alternating suppliers and products, renegotiating contracts to account for market changes, and working in conjunction with appropriate functional areas as needed.
- Deliver and track quantifiable financial benefits and value creation proportionate to the
- Develop, write and publish bids (RFI, RFP, RFQ, RFx).
- Run bid evaluation meetings supported by technical stakeholders.
- Supplier negotiations, Contracts writing and Supplier Relationship Management
- Maintain current market information for the categories of responsibility to ensure that Brandt's prices remain competitive within the confines of existing contracts.
- Liaise with the key capital stakeholders to establish the requirements and key metrics for project delivery.
- Interact with projects/customers on a multi-location/business basis to ensure needs and supply strategies are being executed as desired.
- Ensure compliance with the capital project procurement process and other aspects.
- Develop, monitor, and report performance metrics to key stakeholders
- Promote communication across the region to identify and drive toward common policies and best practices to achieve efficiencies and cost reductions.
- Facilitate the development and enhancement of processes, systems and reporting capabilities.
- Respond to contract administration audits and implement, as appropriate, audit recommendations.
- Responsible for his/her project forecast and results ensuring the appropriate documentation and justification is available

WHAT WE LOOK FOR

- SCMP Certification is preferred
