

Specialist, Quality Management (38915)

Location: Saskatoon, SK

Cameco is committed to pursuing operational excellence as a strategic imperative in each stage of the uranium life cycle. Success in our supply chain department makes us a more sustainable company by developing lasting, mutually beneficial relationships with our vendors based on continuous improvement in performance and total cost of ownership.

Reporting to Lead, Supply Chain Governance and Integration, as the Specialist, Quality Management, your primary responsibility is to manage and control quality risk within material and service supply and procurement activities. You will work closely with various internal and external stakeholders to create alignment on quality program activities, review and update required documentation, and manage change. You will manage compliance to the contractor management program and ensure stakeholder collaboration. You will be responsible for ensuring vendor audits are performed and managing findings to ensure resolution. You will use continuous improvement methodologies to identify, develop and implement improvements to supply chain quality programs and procedures. You will monitor outstanding corrective action activities and support supply chain incident investigations.

The position will be based primarily out of the Saskatoon office and may be considered for hybrid work.

Requirements of the position:

- Bachelor's degree within a related field (business/commerce or engineering)
- Five (5) or more years of related experience in supply chain management, vendor/quality management and/or project management
- A combination of education and work experience may be considered
- Excellent written and verbal communication skills
- High level of computer proficiency, specifically with MS Office and ERP/MRP software
- Effective interpersonal skills with the ability to connect and work with all levels in the organization
- Strong analytical and problem-solving skills, with proficient ability to prioritize workload

Assets:

- SCMP or CPSM designation
- Formal training in Lean Six Sigma
- ISO Lead Auditor Certification
- ASQ Professional Certification

We offer:

- **competitive pay**
- **superior benefits**
- **employee share ownership plan for all employees**
- **Live Better wellness program**
